Attachments: Additional Schedules from WPS.CLAIM.doc

Hi Jen – I did some digging on past events, and this is what I found:

- The 2010 olympics:
 - o We sent officers to Vancouver
 - o We were reimbursed for their salary, overtime, and meals
 - o Accommodations were provided (WPS did not pay)
- The G20 Summit:
 - o We sent officers to Toronto
 - o We were reimbursed by the City of Toronto for their salary, overtime, and meals
 - o I believe the City of Toronto received funding from the Federal and Provincial governments, but do not have any records related to it
- The OAS:
 - o We received officers from several other jurisdictions to assist
 - o In some instances we provided meals at locations such as the Caboto Club, provided catering to location, or provided meal per diems
 - o We arranged and paid for all of their accommodations while in Windsor
 - o I have attached a breakdown of the costs. It details what expenses WPS paid.
 - o Note: the OPP did not charge for salaries, benefits, or overtime
 - WPS only paid their meals, accommodations, transportation, and misc. expenses

Based on the records I have reviewed, the OAS is the most similar situation. I do not have an electronic record of which agency/organization/level of government paid for this event, but the manner in which the costs are accounted for leads me to believe we were reimbursed. Our costs were approximately \$3.5M, and I believe that may have been only part of a larger claim by the City.

If we are looking to deploy a similar model in receiving officers please let me know as soon as possible so we can start looking to book blocks of rooms at the hotels which we already have established billing accounts. We will also need to work out meals/food, and billing arrangements for overtime, etc.

Honestly, if you get to this point, it may be best to bring me into your planning session(s) so I can get an idea of where we are headed and assist with making arrangements.

Let me know if I can do anything else.

Thanks Jen,

Melissa Brindley
